12v 80ah battery inverter

What is a 12V / 80ah battery?

Charging Current 12V |80Ah battery is a high-rate general purpose batterysuitable for UPS/EPS,medical equipment,emergency and security system applications.

Which inverter battery is best?

Thanks to its enduring and powerful performance, the Luminous ILST10036 80 Ah Tubular Inverter Battery makes your inverter capable of functioning optimally. This inverter battery is ideal for areas that have rare and short power cuts. And, the tubular plate design on this inverter battery keeps it protected from dangerous deep discharge.

What is a jumbo tubular inverter battery?

OKAYA PowerON Jumbo Tubular Inverter Battery - OPJT11048. Engineered with cutting-edge technology to provide you with reliable power backup. With an advanced tubular design, Okaya inverter batteries ensure consistent performance during power outages, making them perfect for home inverters, office backups, and more.

Are Okaya Inverter Batteries reliable?

Engineered with cutting-edge technology to provide you with reliable power backup. With an advanced tubular design,Okaya inverter batteries ensure consistent performance during power outages,making them perfect for home inverters,office backups,and more. All our batteries undergo rigorous testing and certification by NABL-accredited labs.

How often should I top-up my Oka inverter battery?

Okaya is an ultra-low maintenance battery that requires water top-up not more than 1-2 times a yearensuring your peace of mind. Order now and elevate your power backup solutions to new heights with Okaya Inverter batteries. At OKAYA,we offer a wide range of power solutions for various applications. Take a look today!
