

## 50kW solar power generation in the Democratic Republic of the Congo

Is a 600 MWp solar plant being built in Congo?

Sun Plus,a unit of The Sandi Group (TSG),has launched construction workon a 600-MWp solar plant in the Democratic Republic of Congo that is part of an even larger project totalling 1 GWp. The two-phase scheme,known as the Kinshasa Solar City,includes the installation of a number of solar photovoltaic (PV) parks near the capital of the country.

#### Does the Democratic Republic of Congo have wind and solar power?

oltaic (PV) and wind resources in the Democratic Republic of Congo. It presents some of the findings from a detailed technical assessment that evaluate of r and wind gener ion capacity to meet the country's pressing needs with quick wins DRC has an abundance of wind and sol r potential: 70 GW of solar and 15 GW of wind, for a total o

#### Does the DRC have solar power?

Solar In addition to hydropower,the DRC possesses significant potential for solar energy,offering a potential of 70 GW with noticeably high solar radiation averaging 6 kWh/m 2 /day.

### Will solar and wind power be cost-competitive in DRC?

lar and wind will provide affordable,cost-competitive electricity Solar PV and wind power would be cost competitive in DRC,with nearly 60 GW of solar PV potential located along existing tran mission lines at a total of LCOE4 of less than 6 U.S. cents per kWh. In addition,nearly al

#### What is the potential for wind energy in the DRC?

Wind Meanwhile, potential for wind energy in the DRC is also significant and largely untapped. Offering a potential of 15 GW, with wind speeds averaging 6-6.6m/s throughout the country, there are a number of high potential areas where wind power could be leveraged across the country.

#### Could wind and solar power the DRC and South Africa?

Riches: How wind and solar could power the DRC and South Africa'. 15% to 55% of DRC's poulation in the DRC should receive electricity via the national grid6. Grid power can serve a more geographically diverse spread of customers, despite the fact that the bulk of the sol
