

American high-power portable power supply manufacturer

What is a high voltage power supply?

High Voltage power supplies and DC-to-DC converters for high temperature applications, such as oil well or borehole logging Ultra-thin power supplies and DC converters for ultra-compact and severe environment applications High power supply modules for either high voltage applications or low cost power supply

What is American high voltage?

From military and oil wells to semi-conductors and medical equipment, American High Voltage produces the extreme temperature and harsh environment power supplies these industries rely on. High Voltage Design Book! Unique designs with quick turnaround times while still meeting industry standards. Copyright 1999-2009-2024 American High Voltage.

Where are Acopian power supplies made?

All Acopian products are made in the USA. And we provide personal, unsurpassed customer service. Reliable. We focus on making power supplies that will last. You may find power supplies that are cheaper than ours, but you won't find any that are built as well or last as long.

Where are military spec power supply modules made?

Military spec power supply modules made in the USA- from a DoD registered supplier with over 30 years of military production experience Oil field and oil well logging power supply and converter modules that maintain operational performance downhole and at high temperatures

Who uses Magna-power power supplies?

Combining robust power processing topologies with state-of-the-art vertically integrated USA manufacturing, tens of thousands of companies--from startups to Fortune 500s--rely on Magna-Power's high-quality programmable DC power supplies and electronic loads to power their innovation.

What is a power supply module used for?

Power supply modules for industrial X-ray non-destructive inspection and mass spectrometry equipment Power supply high voltage modules for specialty high temp, extreme environments Micro-sized power supply and DC converters for compact, miniature, and ultra-miniature high voltage output

From military and oil wells to semi-conductors and medical equipment, American High Voltage produces the extreme temperature and harsh environment power supply units these industries ...
