

Home solar integrated charging machine

What is a SolarEdge home EV charger?

Our SolarEdge Home EV Charger seamlessly integrates with our solar inverters, enabling homeowners to control and optimize all household energy from a single app. Get more from going solar with a Home EV Charger that's versatile and built to last.

Does SolarEdge EV charger work with solar inverters?

Whether used independently or integrated with the SolarEdge Home Hub, this charger offers unparalleled flexibility and up to 25% faster charging using clean, affordable solar energy. Experience unified power management by seamlessly connecting your EV charger with SolarEdge's solar inverters.

Which EV charger should I use for my Home Solar System?

We recommend Level 1 Home Solar EV Chargers if you have a smaller home solar system or a dedicated solar energy management system. These chargers require less power (1.2-1.4 kW, 10-12 amps at 120 volts) and charge at a slower rate (typically 4-5 miles of range per hour), making them ideal for smaller home solar systems.

Is my charging system an energy management solution?

Your charging system is now an energy management solution. Unlock the full potential of your home charger with a Wallbox power meter and our built-in energy management features. Maximize charging speed while staying within your home's power limit. When overall energy consumption is high, charging speed drops.

Can I connect my EV charger with a solar inverter?

Experience unified power management by seamlessly connecting your EV charger with SolarEdge's solar inverters. Control and optimize all household energy through a single app, allowing you to drive on sunshine and save money by harnessing solar power for your EV charging needs. Integrate your EV Charger with a Home Hub Inverter!

What is a Level 2 home solar EV charger?

Level 2 Home Solar EV chargers are equipped with advanced smart EV charging features such as load balancing, scheduled charging, and performance monitoring. These capabilities optimize solar energy usage and enhance charging efficiency.

If you're traveling, wait until you return home to change your subscription plan. If you still can't change your plan, find out who your subscription is billed through and contact them for help.
