

Lithium battery with power frequency inverter

This Pure Sine Wave Solar Inverter is a combination of an inverter, ac battery charger, MPPT solar charge controller and AC auto-transfer switch. High transfer efficiency is above 85%, built ...

High transfer efficiency is above 90%,, complete isolate surge interference of input & output"s voltage and current, Impact resistance, super load capacity, built-in AVR stabilizer, continuous stable pure sine wave output. Battery typesetting choose: SLA / AGM / GEL / Li-ion ...
