

## Number of 5G base stations of Madagascar communication operators

Which network operators are in Malagasy?

These network operators are on the air covering the country in 2G on 900 MHz and 1800 MHz and 3G on 2100 MHz: Airtel, Telma (Telecom Malagasy), Orange and bip by Blueline (only 3G, 4G/TD-LTE). Network coverage is still somewhat patchy in the country.

#### Does Telma Madagascar have a 5G network?

Last month, Telma Madagascar switched on the country's first 5G commercial networkin multiple cities with the help of Ericsson. Specifically, the Swedish vendor was selected by the operator last October to upgrade its core and radio network.

### Does Madagascar have 4G?

A new licence allows the operator to offer 4G services on 1800 MHz, testing for which began taking place in 2016. It was finally launched 2017 in Anatananarivo and 8 other towns. In 2016 the 4th operator in Madagascar started called bip. It only offers 2G, 3G and 4G/LTE. The coverage is said to be "in all 22 regions" of the country.

#### Does Madagascar need 5G?

Specifically,the Swedish vendor was selected by the operator last October to upgrade its core and radio network. For Madagascar, there have been two critical use cases that have emerged for 5G: enhanced mobile broadband (eMBB) and Fixed Wireless Access (FWA).

#### Which ISP offers 3G & 4G internet in Madagascar?

ISP Gulfsat Madagascar, which operates under the Blueline banner offers 3G and 4G/LTE internet in the capital of Anatanarivo only. This is not so suitable for traveller, but more like a substitute for home ADSL. 3G is probably through their roaming agreement with Telma, 4G/LTE is on their own TD-LTE in 2500 MHz (band 41) which is rather unusual.

#### What is the Madagascar telecom operators country intelligence report?

The Madagascar telecom operators country intelligence report provides an executive-level overview of the telecommunications market in Madagascarwith detailed forecasts of key indicators up to 2026.
