

## UK Zhiyuan Energy Storage Power Station

Where is the UK's largest battery energy storage system located?

National Grid has connected the UK's largest battery energy storage system (BESS) to its transmission network at Tilbury substation in Essex. The 300MW Thurrock Storage project, developed by Statera Energy, is now energised and delivering electricity flexibly to the network across London and the south east.

### What is the largest battery storage project in the UK?

Thorpe Marshis the largest battery storage project in the UK at 1.45GW (2.9GWh). The project is being developed by Fidra Energy on land adjacent to a former coal station site and large National Grid substation in Yorkshire, England. View the Local Planning Application here.

### Could a new battery storage facility be built at Uskmouth Power Station?

More info Plans to create one of the largest battery storage facilities in the UKat the site of the former coal powered Uskmouth Power Station in Newport have been boosted with a £8.5m loan from the Cardiff Capital Region.

### Will big battery storage support the energy transition?

Fidra Energy,one of the UK's largest battery energy storage developers with a 3.15GW pipeline, is optimising big battery storage to support the energy transition. Battery energy storage systems will ensure that clean and reliable electricity supplies can be provided when the wind doesn't blow or the sun doesn't shine.

#### Why is Huaneng a battery storage project?

In southern UK,a battery storage project by the Chinese company Huaneng is helping to secure greater stability and flexibility of power supplyin the country. /CGTN In southern UK,a battery storage project by the Chinese company Huaneng is helping to secure greater stability and flexibility of power supply in the country.

#### What is a battery energy storage system?

Battery energy storage systems (BESS) are used to store energy from renewables, like solar and wind, and then release it when the power is needed most. Mark Selvaratnam, project manager of Lakeside Energy Park, said the facility would have a " significant impact " on the country's clean energy transition.
