### Wave solar panels

#### Who is Solar Wave?

At Solar Wave,we are committed to helping Colorado residents make the switch to clean energy. As a leading solar installation companyin the area, we make the process easy and hassle-free with our instant online quotes and expert team of local installers. Ready to take the first step towards energy independence?

#### Who is smart wave solar?

Check out our 5 star reviews online. Our pre-vetted network of installers compete for your business, which allows us to give you more options and the best deals. Smart Wave Solar is one of the fastest growing installers with deep roots in the solar industry. Our solar energy systems provide you with an emergency power supply for no additional cost.

#### Does smart wave solar cut corners?

At Smart Wave Solar we offer an amazing price, but that doesn't mean we cut corners! In fact, the opposite is true. We offer premium solar panels with a 25 year warranty that guarantees production. Most solar stops working when the power goes out; however, we offer an emergency power supply with our solar systems for no added cost.

#### What are wave energy projects?

Similar to tidal energy, wave energy projects entail upfront investment for device placement and infrastructure. Ongoing maintenance costs can be significant for offshore installations exposed to corrosive saltwater and high wave forces.

#### Is wave energy a renewable source?

Wave energy generation can be relatively consistent compared to other renewable sources, such as wind and solar, due to the continuous motion of ocean waves. Wave energy devices may experience downtime for maintenance and repairs, particularly in harsh marine environments.

#### What makes solar wave so good?

Solar Wave gave the most transparent and cost-efficient estimate, and continued to build trust throughout with great communication and advice. Installation was very professional and no surprises on cost or production. The financing terms they set up were also best among several quotes.

# SOLAR PRO.
