

## Yemen Energy Storage Power Station Subsidy

Is there a shortage of electricity in Yemen?

Yemen is experiencing a severe shortageof several gigawatts of electricity, according to the Yemen Public Electricity Corporation (YPEC), which is a semi-independent arm of the Yemen Ministry of Electricity and Energy (YMEE) (World Bank 2009).

#### How does Yemen generate electricity?

Yemen will generate annual revenue from carbon trading and the sale of unused fossil fuels (such as oil and its by-products) and natural gas by relying on renewable energy to generate electricity. The total generating capacity of wind and solar energy is 18600 + 34,286 = 52886 MW (52.886GW).

#### Why is the energy sector important in Yemen?

The Yemeni government is committed to economic reform, hoping that it will lead to further economic stability and recovery in the upcoming future. The energy sector is one of the key elements of these improvements (The Republic of Yemen 2013). Besides, Yemen's power industry is currently witnessing the worst crisis in the nation's history.

### Is there a new power plant in Yemen?

In August 2013, Yemen began construction of a new 400 MW (Ma'rib II) gas-fired power generation facility, which is scheduled to start operation at the end of 2014, but was delayed to the recent years due to the recent security turmoil (Economic Consulting Associates Limited 2009; Arab Union of Electricity 2015; U.S. 2017; Rawea and Urooj 2018).

#### What are the major energy problems in Yemen?

Yemen is facing serious energy problems, such as circulation obligations, line losses, obsolete transmission lines, and electricity the ftamong the rural population (71%), resulting in 8-10 h of power shortage.

#### What is the main source of energy in Yemen?

As mentioned earlier, according to the International Energy Agency, in 2000, oilmade up 98.4% of the total primary energy supply in Yemen, while in 2017, oil made up about 76% of the total primary energy supply, and natural gas about 16%. Oil and gas are the largest suppliers of fuel for power plants (Sufian 2019).
