

Bulgarian energy storage container production plant

Why do we need energy storage solutions in Bulgaria?

Establish a reliable energy system with greater share of intermittent generation. In the context of Bulgaria's energy landscape, energy storage solutions present a diverse array of benefits to various stakeholders stemming from its unique ability to time-shift energy and rapidly respond when called upon. The applic

Can battery-based energy storage improve peaking capacity in Bulgaria?

Storage can also offer greater flexibility and efficiency in managing the grid. Furthermore, and although hydropower storage already makes up a significant source of peaking capacity in Bulgaria, battery-based energy storage can address peaking needs during times of droughts, meet requirements for more distributed peaking po

Where is a Bess power plant located in Bulgaria?

A BESS facility of 124.1 MW in operating power was inaugurated in Lovechin Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system.

What challenges will Bulgaria face on its energy transition?

Get a glimpse of the new challenges Bulgaria will face on its energy transition. In May 2023, Bulgaria was for the first time in a decade a net importer of electricity². The reason for this was not a lack of generating capacity, but instead the natural logic of power markets seeking the

Where does Bulgaria get its electricity from?

Electricity came from thermal power stations, and only 7 percent from solar and wind¹. Historically, Bulgaria has also been a major producer and exporter of electricity for the surrounding region with a total of 10 interconnectors spread across Romania, Serbia, North Macedonia, Greece, and Turkey. The country thus has a critical role in driving a more s

Should Bulgaria move away from coal?

Countries, a move away from coal is not just a challenge for the energy system. It also brings wider challenges around job security and an urgency for Bulgaria to seize the new regional opportunities created by the ever-growing renewable sector. Fortunately, Bulgaria sits in the privileged position where it can

Fortunately, Bulgaria sits in the privileged position where it can profit from the experiences of other energy systems with high renewable shares. Here, battery-based energy storage is integrated ...
