

The French residential solar market is currently in a state of rapid growth. This growth is being driven by a number of factors, including rising electricity prices, the desire for ...

This report offers a comprehensive analysis of France's photovoltaic market and developments over the past year. 2023 was a record-breaking year for PV installations in France, with a total ...

Solar PV installations in France started being substantial only from around 2008. Between 2009 and 2011 PV capacity grew almost tenfold, from a relatively low level. In its 2014 report "Global Market Outlook for Photovoltaics", the European Photovoltaic Industry Association (EPIA) not only blames the French governm...
