

Home costs of solar systems in Finland

How much solar energy does Finland produce a year?

Areas with the most favorable conditions can produce roughly twice the solar electricity that Finland does. In the best areas, the total radiant energy is about 2500 kWh per square meter a year. In Finland, the corresponding figure is approximately 900 kWh per square meter- slightly more in the most southern parts and slightly less up north.

Can solar power improve the profitability of buildings in Finland?

LUT University has investigated how the profitability of solar electricity could be improved in different types of buildings in Finland. Researchers have debunked myths related to the orientation and dimensioning of solar photovoltaic systems and sales of surplus electricity.

How much solar power will Finland have by 2030?

In addition, Finland's transmission system operator Fingrid has received wind and solar power connection enquiries amounting to a total capacity of over 100 megawatts. Fingrid assesses that by 2030, the overall solar power plant capacity in Finland may climb to seven gigawatts.

Is solar electricity a viable alternative to self-consumption in Finland?

In Finland, solar electricity has so far been a financially competitive alternative only if the self-consumption rate has been high. Now, however, the situation is changing, as solar farms are being built to produce electricity to sell directly to the main grid.

How much sunlight does Finland get a year?

In the best areas, the total radiant energy is about 2500 kWh per square meter a year. In Finland, the corresponding figure is approximately 900 kWh per square meter- slightly more in the most southern parts and slightly less up north. At an annual level, however, Finland gets roughly as much sunshine as countries such as Germany or Denmark.

Where should I buy solar panels?

We recommend acquiring your panels from a reliable company that is sure to remain in business for the entire lifecycle of your solar power system. A good salesperson will answer any use-phase questions you may have, handle your warranty issues, if necessary, and enable you to expand your system and add new products to it.
