

Oman Energy Storage Enterprise Project

Will Oman have a solar energy storage system?

Additionally, PDO is finalizing plans for a 100 MW solar PV-based IPP, named the 'North Solar Storage IPP,' set to include Oman's first battery energy storage system (BESS). This BESS, using lithium-ion battery technology, will store electrical energy and supply a maximum of 100 MW peak power to PDO's grid during daylight hours.

What is the Oman gas system project?

The Oman Gas System project is associated with the 182km Al Ain-Fujairah. Oman Gas Co SAOC (OGC), a subsidiary of Oman Oil Company S.A.O.C. is an oil and gas company that offers natural gas transportation services. The company provides project management services in pipeline construction.

How much will Oman's power sector invest in the next six years?

Taken together with parallel plans for the implementation of a raft of Wind IPPs and combined cycle gas turbine (CCGT) power projects, total investment in Oman's power sector is set to balloon to well over \$5 billion over the next six years through to 2030.
