

Professional energy storage lithium battery manufacturer in the Netherlands

Who is Lithium Werks?

Lithium Werks provides cells, custom battery packs, and battery management systems into markets such as stationary energy storage, industrial, commercial marine, and transportation. Using patented technology, Lithium Werks focuses on long-term partnerships with our clients to provide powerful, inherently safe and reliable battery systems.

Where are battery management systems developed?

The batteries and battery management systems are primarily developed in the Netherlands, with the company also designing fully automated testing systems to maintain the high quality of its BMS. Supplier of Lithium batteries and energy storage solutions. Custom or prebuilt solutions available now.

When did Aces energy start selling lithium batteries?

By the beginning of 2017, the company had successfully sold its first Lithium batteries. The primary goal of ACES Energy was to create Lithium battery solutions that could easily replace lead acid batteries, offering customers lower ownership costs and improved performance.

Why should you choose Lithium Werks?

Using patented technology, Lithium Werks focuses on long-term partnerships with our clients to provide powerful, inherently safe and reliable battery systems. Custom battery packs and modules using Best-in-Class components.
