

Solar cell prices in Georgia

How much do solar panels cost in Georgia?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Georgia homeowner needs a 12.35 kW solar panel system to cover their electricity needs, which comes out to \$31,703 before incentives. Prices range from \$26,948 to \$36,458, but after the federal tax credit, that drops by 30%.

How much does solar panel installation cost in Atlanta?

For example, prices for solar panel installation in Atlanta start at around \$25,100, while prices in Helen start at \$28,520. The average cost of solar panel installation in Atlanta is \$37,250, with most people paying between \$25,100 and \$49,400. Compared to the average cost of solar panel installation, this is relatively expensive.

How much does a 5 kW solar system cost in Georgia?

You can expect to pay \$13,000 for a 5 kW rooftop solar system in Georgia, which would equal a federal tax credit of \$3,900 (or 30%). This means the net cost of your solar array falls to \$9,100. The ITC is available for solar systems installed on main residences and secondary homes, but not rental properties.

How much energy does Georgia get from solar panels?

Georgia currently gets nearly 3.5% of its electricity from solar panels, which is enough to power more than 359,000 homes. Georgia solar panels can help residents save \$1,700 on energy bills each year. Discover the potential savings with Choose Energy.

How much do solar panels cost?

The cost of solar panels in Georgia is currently lower than the average price of \$3.00 per watt across the United States for residential solar power systems. The size of a solar panel system affects the installation cost, with larger installations having a lower cost per watt due to 'bulk pricing'.

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.
