

Two batteries connected in parallel and then connected to the inverter

With 2 batteries connected in parallel, should I be drawing on the opposite terminals than I'm charging? I have a solar panel setup with 2 deep cycle batteries connected in parallel. This ...

I am planning to configure 3 inverters in parallel, can I connect different batteries to every inverter separately or all DC should be on 1 line and 1 battery system? I am asking this ...

Two batteries connected in parallel and then connected to the inverter
