

Where are the communication base stations in Costa Rica

What telecommunications are available in Costa Rica?

Telecommunications in Costa Rica include radio, television, fixed and mobile telephones, and the Internet. Radio stations: more than 100 privately owned radio stations and a public radio network (2007). Television stations: multiple privately owned TV stations and 1 publicly owned TV station; cable network services are widely available (2007).

How many radio stations are there in Costa Rica?

The University of Costa Rica has three radio stations. Two of these use frequency modulation and one uses amplitude modulation. They are all unified under the Spanish umbrella term 'Radioemisoras UCR', whose director is Sylvia Carbonell.

Where can you find cell phone signals in Costa Rica?

Cell phone signals in Costa Rica are a bit like the wildlife, you never know what you're going to get until you get there and it could be there one minute and gone the next. One of our favorite spots on the Nicoya Peninsula is a remote house on Sand Dollar Cove at the far north end of Playa San Miguel.

Does Costa Rica have good signal?

There may be great signal in some of the white zones but there are no roads there so you'll have to walk to talk. Conversely, just because there are a bunch of green dots in the area you plan to stay doesn't mean you'll have signal at your hotel, resort or lodge. There are a lot of hills, mountains, ridges and forests in Costa Rica.
